

HIGHWAY BRIDGE BETWEEN LUBEC, MAINE, AND
CAMPOBELLO ISLAND, NEW BRUNSWICK, CANADA

JUNE 25, 1956.—Referred to the House Calendar and ordered to be printed

Mr. JARMAN, from the Committee on Foreign Affairs, submitted the
following

R E P O R T

[To accompany S. 3527]

The Committee on Foreign Affairs, to whom was referred the bill (S. 3527) authorizing the State Highway Commission of the State of Maine to construct, maintain, and operate a free highway bridge between Lubec, Maine, and Campobello Island, New Brunswick, Canada, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

S. 3527 passed the Senate on June 11, 1956, and was referred to the Committee on Foreign Affairs on June 13. The committee met in executive session on June 19, 1956, on the measure and unanimously ordered it reported. It authorizes the State Highway Commission of Maine to construct, maintain, and operate a free highway bridge and approaches thereto, at a point suitable to the interests of navigation, across the waters between Lubec, Maine, and Campobello Island, New Brunswick, Canada, so far as the United States has jurisdiction over such waters.

The bill further provides that the construction, maintenance, and operation of the proposed bridge will be in accordance with the provisions of the 1906 act which regulates bridges across navigable waters and will be subject to approval of the Canadian authorities.

This bill is substantially similar to prior bills approved by the committee and enacted into law involving the construction, maintenance, and operations of international bridges.

REPORT
OF THE
COMMISSIONER OF THE
LANDS AND
MINES

Presented to the House of Representatives
at the Session of 1925

By Mr. J. A. G. Macdonald, Minister of Lands and Mines

REPORT

1925

The Commission on the Lands and Mines of the Province of Alberta, established by the Government of Alberta in 1923, has the honor to submit to the House of Representatives its report for the year 1925. The Commission was organized on January 1, 1924, and has since that time been actively engaged in its duties. It has held numerous public hearings and has received many suggestions from the public. It has also conducted extensive research into the lands and mines of the Province. The Commission's report for the year 1925 is divided into two main parts: the first part deals with the lands of the Province, and the second part deals with the mines. The first part of the report contains a detailed account of the Commission's work in the field of lands, including a description of the lands of the Province, a description of the Commission's work in the field of lands, and a description of the Commission's work in the field of lands. The second part of the report contains a detailed account of the Commission's work in the field of mines, including a description of the mines of the Province, a description of the Commission's work in the field of mines, and a description of the Commission's work in the field of mines. The Commission's report for the year 1925 is a comprehensive and detailed account of its work, and it is hoped that it will be of great value to the House of Representatives.
